

1 Claim 1. An all-surface vehicle comprising: 1
2 a pair of large inflatable tubes mounted on a common axis, 2
3 a motor carried by said tubes and including means for indepen- 3
4 dently driving each of said tubes, and 4
5 a load carrying compartment mounted so that its center of gravity 5
6 is below said axis. 6

1 Claim 2. The device of Claim 1 wherein:
2 said tubes have sufficient buoyancy to enable said vehicle to travel
3 on water.

1 Claim 3. The device of Claim 1 wherein:
2 said tubes are supported on a framework of spokes.

1 Claim 4. The device of Claim 3 wherein:
2 said spokes are formed of metal.

1 Claim 5. The device of Claim 3 wherein:
2 said spokes are formed of wire.

1 Claim 6. The device of Claim 3 wherein:
2 said spokes are formed of inflatable tubes

1 Claim 7. The device of Claim 1 wherein:
2 said tubes are supported by discs of transparent plastic.

1 **Claim 8.** The device of Claim 1 wherein:

2 said means for driving said tubes includes means for remotely

3 controlling the operation of said vehicle.

1 Claim 9. The device of Claim 1 wherein:
2 said compartment includes seating for at least one human. 2

1 Claim 10. The device of Claim 1 wherein:
2 said means for driving said tubes includes manual means for
3 operation by a human driver.

1 Claim 11. The device of Claim 1 wherein:
2 each of said tubess are dual tubes having inner and outer tubes
3 with the outer tube of each set being of slightly less diameter than the
4 inner tube.

1 Claim 12. An inflatable vehicle comprising: 1
2 a pair of circular tubes mounted in parallel, spaced relation and 2
3 joined by a supporting structure, 3
4 said supporting structure serving to carry a load having its center 4
5 of gravity supported below the axis of said tubes. 5

1 Claim 13. The device of Claim 12 wherein: 1
2 said supporting structure includes seating for at least one human. 2

1 Claim 14. The device of Claim 13 wherein:
2 said motor serves to drive said tubes independently. 2

1 Claim 15. The device of Claim 13 wherein:
2 said motor includes manual controls. 2

1 Claim 16. The device of Claim 13 wherein: 1
2 said motor includes means for remotely controlling said vehicle. 2

1 Claim 17. The device of Claim 12 wherein: 1
2 said tubes have sufficient buoyancy to enable said vehicle to travel 2
3 on water. 3
